The diagram illustrates the relationship between the number of equal parts a whole is divided into and the fraction of the whole each part represents. It consists of three separate visualizations:

- First visualization:** A single rectangle is divided into two equal vertical sections. Below each section is the letter 'D'. This represents the fraction $\frac{1}{2}$.
- Second visualization:** A single rectangle is divided into four equal vertical sections. Below the first two sections is the letter 'M', and below the last two sections is the letter 'M'. This represents the fraction $\frac{1}{4}$.
- Third visualization:** A single rectangle is divided into eight equal vertical sections. Below the first four sections is the letter 'Y', and below the last four sections is the letter 'Y'. This represents the fraction $\frac{1}{8}$.
